

## PLUMBING PERMITS

### GENERAL INFORMATION

A plumbing permit allows you to install, relocate or change plumbing systems. City code requires you to obtain a plumbing permit.

Plumbing Permits can be part of a building permit submittal, or can be applied for separately.

### ITEMS REQUIRED TO BE SUBMITTED

The Development Services Department uses an electronic permitting system that will allow you to submit a Commercial or Residential Plumbing Permit. However, these permits are required to include the below-listed items:

PLUMBING PERMITS

### OTHER INFORMATION

The time it takes to get your plumbing permit depends on how complex your project is, how many corrections of your plans you need to make, and how quickly and completely you respond when we ask for corrections to the plans and/or materials submitted to us. We try to finish our initial review of complex commercial projects in 2 weeks, and 1 week for simpler residential projects. Sometimes we ask you to make corrections after the initial review, which triggers a second review of your corrected plans.

Following is a list of the Acknowledgements and other information you will need to submit Plumbing Permits:

- Electronic Signature Acknowledgement
- Electronic Submittal Requirements
- Agent Authorization Acknowledgement
- Permit Submittal Acknowledgement

*The purpose of this handout is to assist the public in complying with detailed permit submittal requirements. It is NOT a complete list of permit or code requirements and should NOT be used as a substitute for applicable laws and regulations. It is the responsibility of the owner/design professional to review the submittal for completeness and applicability to other codes. Only complete applications can be accepted by the City for review.*
